ABOUT PADEL BUILD

As the leading turnkey Padel court construction company, we bring together expertise, experience, and a deep love for the sport. Our team consists of architects, Padel specialists, and enthusiasts who understand the unique dynamics and requirements of building a Padel court.

At Padel Build, we proudly partner with Padel Galis, renowned suppliers of Padel courts from Spain. This collaboration ensures that our clients receive top-quality materials and unmatched craftsmanship for their projects. With our combined expertise and their exceptional courts, we deliver nothing but excellence.

OUR SERVICES

Extensive range of services are designed to bring your dream Padel court to life. Our turnkey solutions exceed expectations, aligning with the latest industry trends. We guide you through every step, ensuring exceptional quality, financial viability, and a facility that becomes the pride of the community.

Consultation and Project Planning:

Personalised consultations, detailed cash flow models, business plans, and feasibility assessment.

Maintenance and Support:

Comprehensive plans for longevity and optimal performance of your court.

Customisation and Branding:

Unique branding options to reflect your style.

Architectural Design and Renders:

Detailed renders and walkthroughs for precise visualisation.

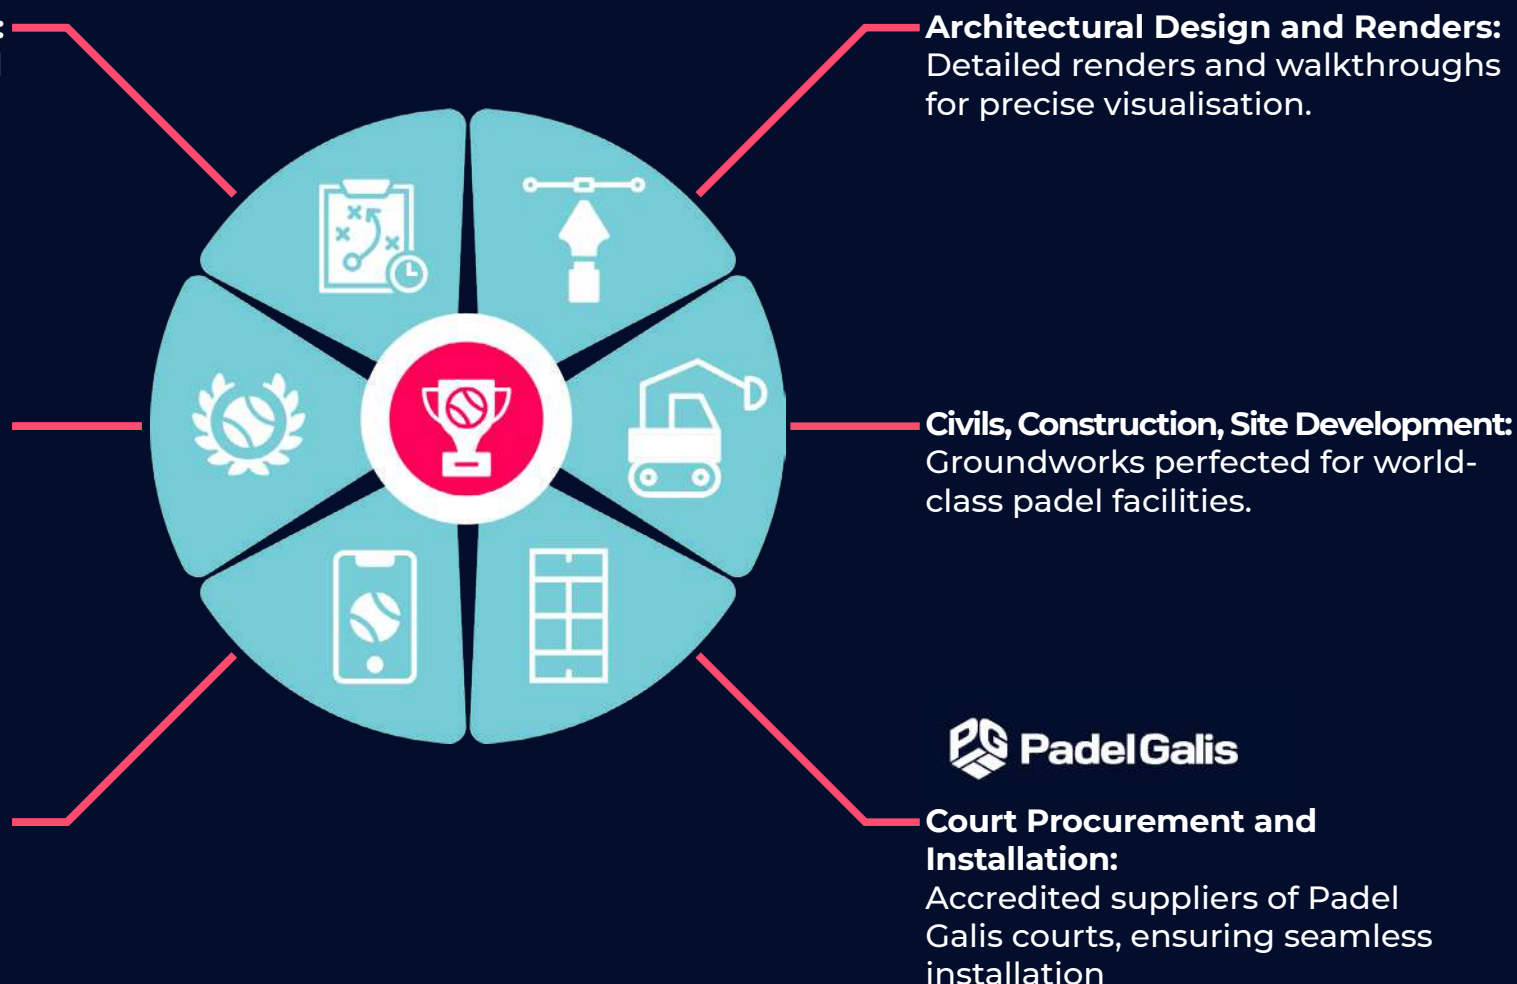

Civils, Construction, Site Development:

Groundworks perfected for world-class padel facilities.

Court Procurement and Installation:

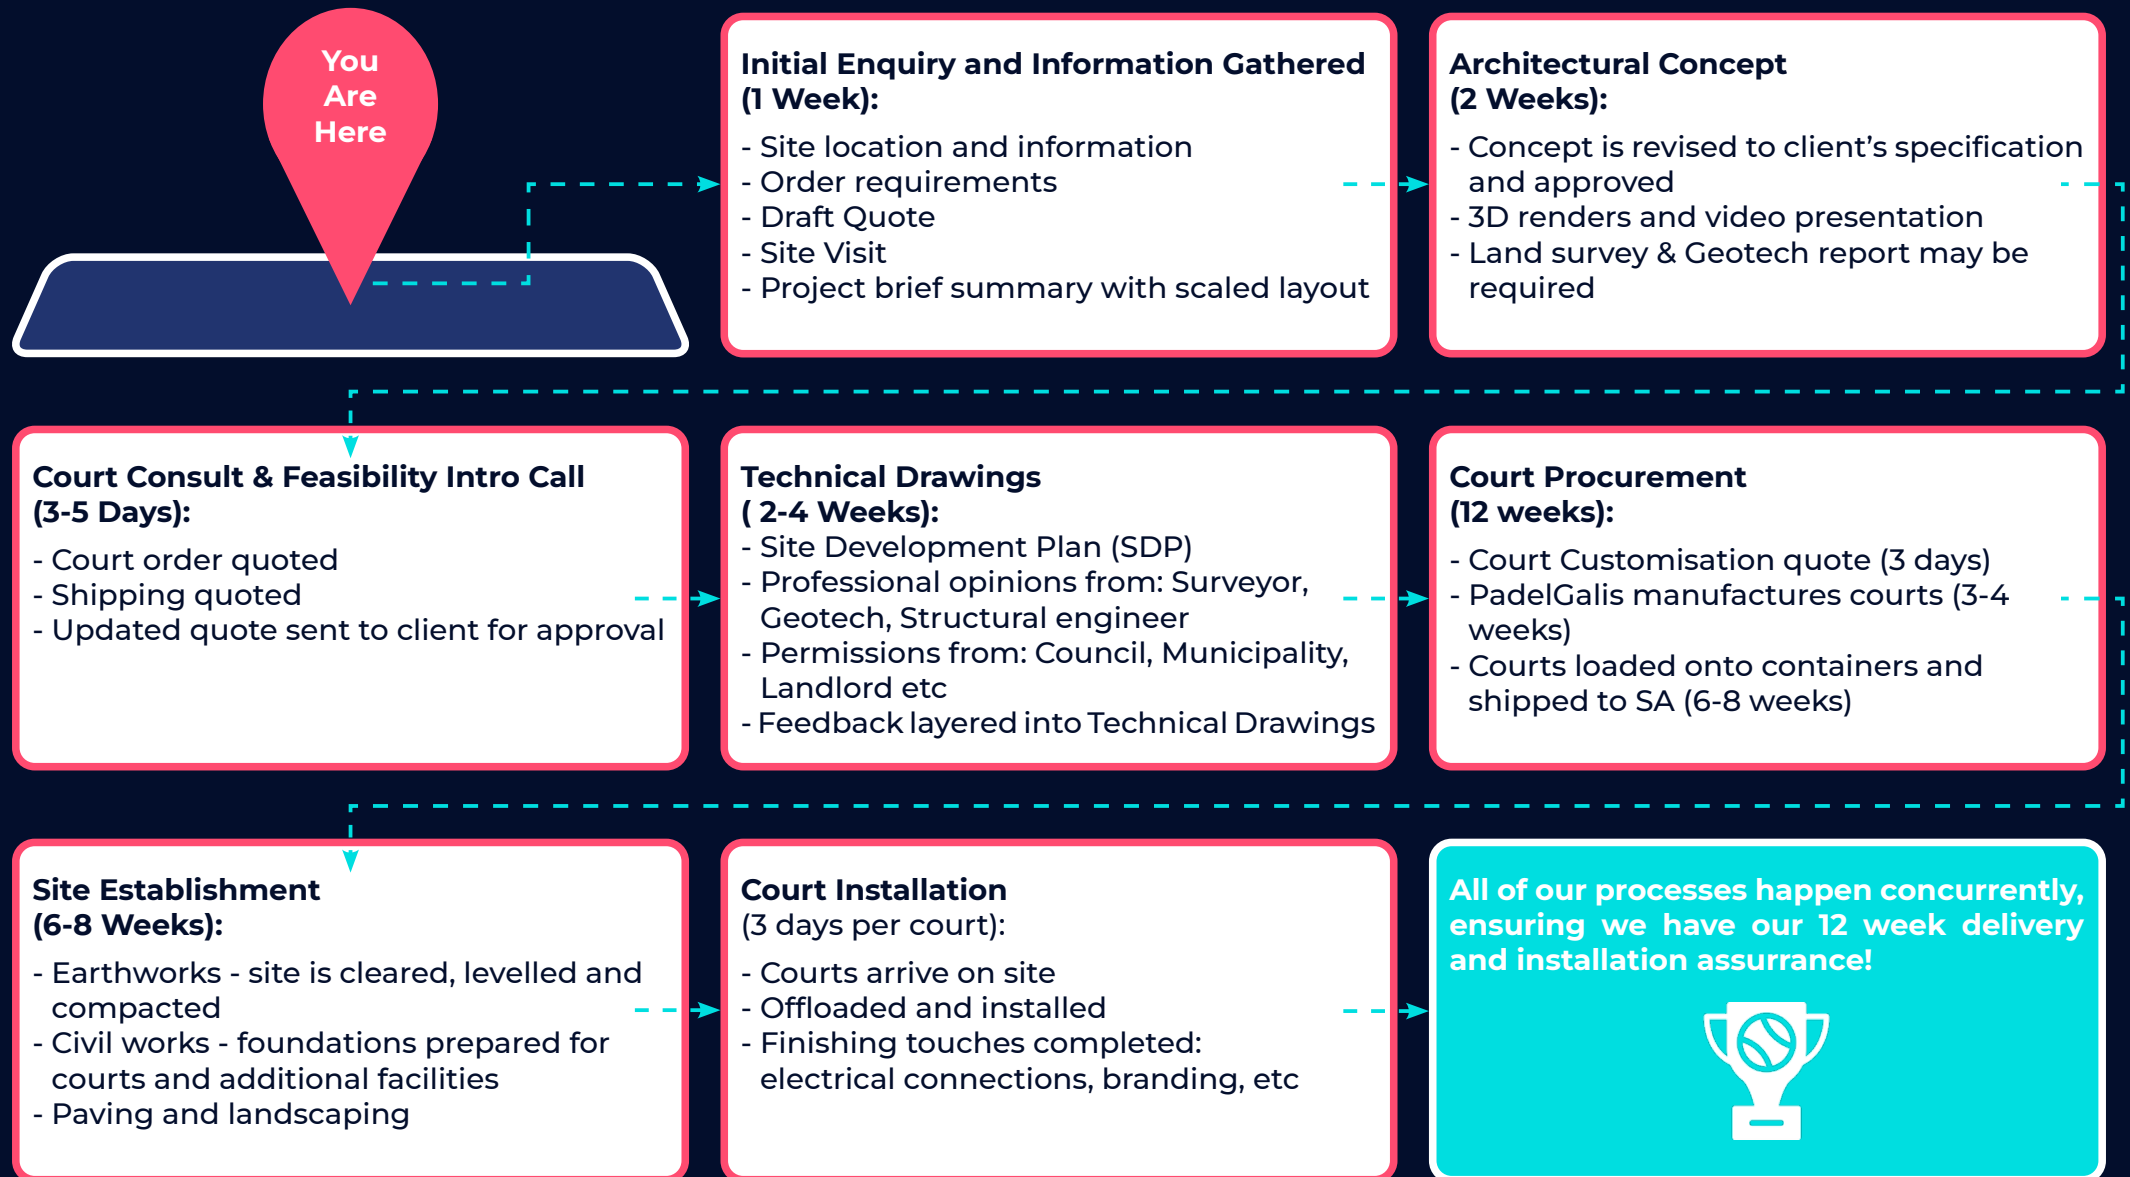

Accredited suppliers of Padel Galis courts, ensuring seamless installation

PROCESS

Customer Journey:

12 Weeks from payment of court deposit to first serve.

COURTS

MUNDIAL

The Mundial, our classic model is renowned for its panoramic design, seamlessly blending straight lines and delivering unparalleled durability. The court's robust corner pillars ensure exceptional strength, making it perfect for any environment.

SPECIAL EDITION ULTRA PANORAMIC

The Ultra Panoramic court offers maximum visibility from all angles with its discreet design and glass reinforcement. It combines aesthetics with exceptional performance, enhancing the overall playing experience.

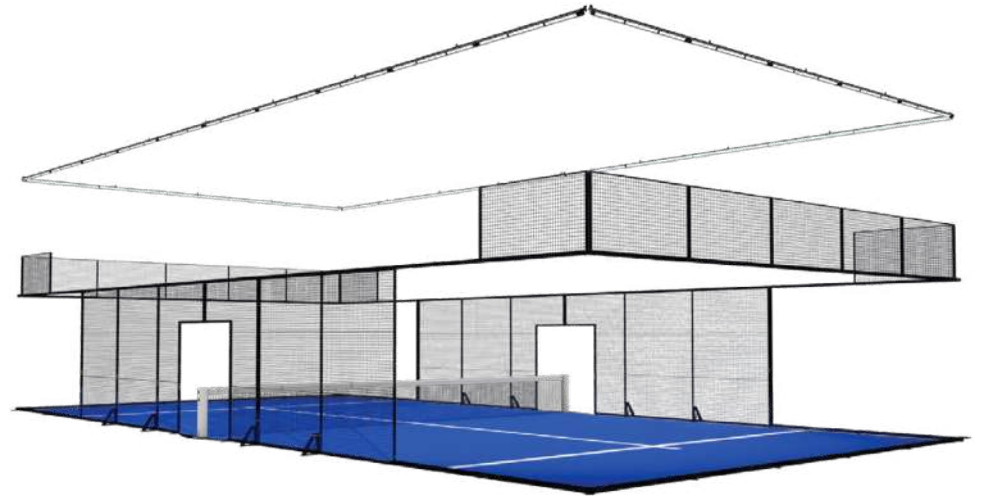

MUNDIAL 360

This model introduces a slim and rounded corner pillar to the classic Mundial, a design innovation that not only enhances its aesthetic appeal but also contributes to its strength and elegance.

PPA ULTRA

Padel Galis and the Professional Padel Association (PPA) have collaborated to introduce the innovative PPA padel court with curved lighting or its ground breaking perimeter lighting. Features include dedicated spaces on the posts for convenient ball storage, and entrance and net post protections.

PORTABLE KIT

Designed for spaces where bolting into the ground isn't possible, including tennis courts, parking areas, and warehouses, the Portable Kit offers complete flexibility and can be installed wherever you want it. Transform any solid, smooth, and levelled surface, such as a fast tennis court, into a Padel court effortlessly with this versatile kit.

FLEXIPADEL

Introducing the Portable Platform by Padel Galis and Flexipadel revolutionizing padel court installation. The ceramic tiles are heavy enough to make the game feel like courts installed on a cement slab but easier on players joints and improving match play and better ball bounce. Ideal for both temporary and permanent setups. Compatible with MUNDIAL 90, M360, WILSON 90, and PPA models.

WILSON ELITE

The design of the Wilson Elite is a testament to the dynamic collaboration and incorporating various Wilson customizations such as Wilson court exits, glossy paint finishes and the inclusion of premium lighting (Galis 420 LEDs).

HURACÁN

Introducing the Huracán a court engineered for resilience in the face of challenging weather conditions and can endure winds of up to 260km/h. Distinguished by a robust structure featuring a powerful pillar at the courts rear with a customizable canvas, displaying the club's name and logo.

STRATEGIC PARTNERS

A worldwide reference in the design, manufacturing and installation of padel courts. Padel Galis, the sole official supplier of the official World Padel Tour court since 2020 and of the Wilson court since 2022. Every day, innovation in our products and processes is key to achieve the highest quality and excellence in customer service.

CUSTOMISATION

A high-angle, wide shot of a large indoor sports facility. The facility features several tennis courts with black surfaces and white boundary lines. The courts are separated by blue safety netting. In the center of the facility, there is a lounge area with blue carpeting, white tables, and chairs. The facility is illuminated by bright overhead lights. The word "CUSTOMISATION" is written in large, white, bold letters at the top left of the image.

TURF

Texturised:

Featuring individual curly filaments, this turf type ensures a faster game pace and improved infill stability for a consistent bounce. Not only does it excel in performance, but it also boasts enhanced aesthetics, with less noticeable infill material and vibrant court colours. Requiring less sand, it stands out for its low-maintenance advantage. Recommended for indoor courts, Textured Monofilament Artificial Turf delivers speed and a reliable bounce for an unparalleled playing experience.

Monofilament:

Monofilament Artificial Turf: characterized by individual polyethylene monofilaments, this surface ensures durability, resilience, and high recovery. Ideal for slower-paced games, the sturdier fibers contribute to controlled ball speed. While requiring slightly more maintenance, the benefits of durability and resistance make it highly recommended for outdoor courts.

ROOFS

Portal Frame

Crafted for robust, straightforward coverage, providing excellent protection from the elements while maintaining an open, airy atmosphere. Ideal for large sports facilities, these roofs create a stable environment that minimises external disruptions, allowing players to stay focused.

Faceted Frame

Offering a striking aesthetic alongside strong performance. These structures incorporate angled framing, providing enhanced durability and adding a modern edge to your court facilities. The faceted design is particularly suited for facilities looking to make a visual impact while ensuring structural integrity.

Dome Frame

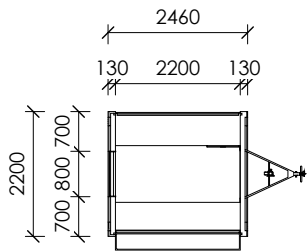

Provides a sleek, rounded coverage option. The curved design not only adds visual appeal but also improves airflow and acoustics, creating an inviting atmosphere for players and spectators alike.

MONO PODS

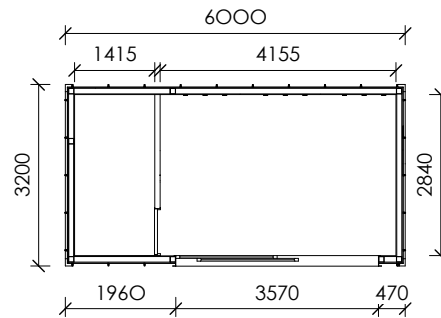

Mini Pod (4m²):

Mini Pod is minimalistic in its design. The pod fashioned from sleek structurally insulated cladding built on a chassis. With simple, elegant features, the Mini Pod is easy to construct and effortless to maneuver as you please.

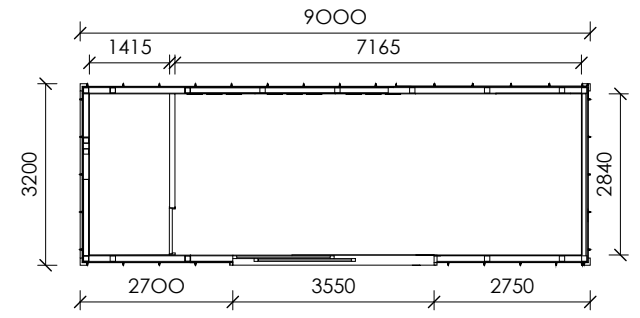

Midi Pod (16m²):

Midi Pod is easily constructed from sleek Klip-Lok sheeting, LSF steel, with warm timber interior cladding. It features a Proshop to accommodate the sale of padel goods and a Storage room. The Midi Pod is a durable and modernly aesthetic structure ready to be placed according to your needs.

Maxi Pod (25m²):

Maxi Pod is easily constructed from sleek Klip-Lok sheeting, LSF steel, with warm timber interior cladding. It features a Proshop to accommodate the sale of padel goods and a Storage facility. The pod is shear size accomodates for more occupants to circulate through and could offer more flexibility in the facilities it offers.

PROJECTS

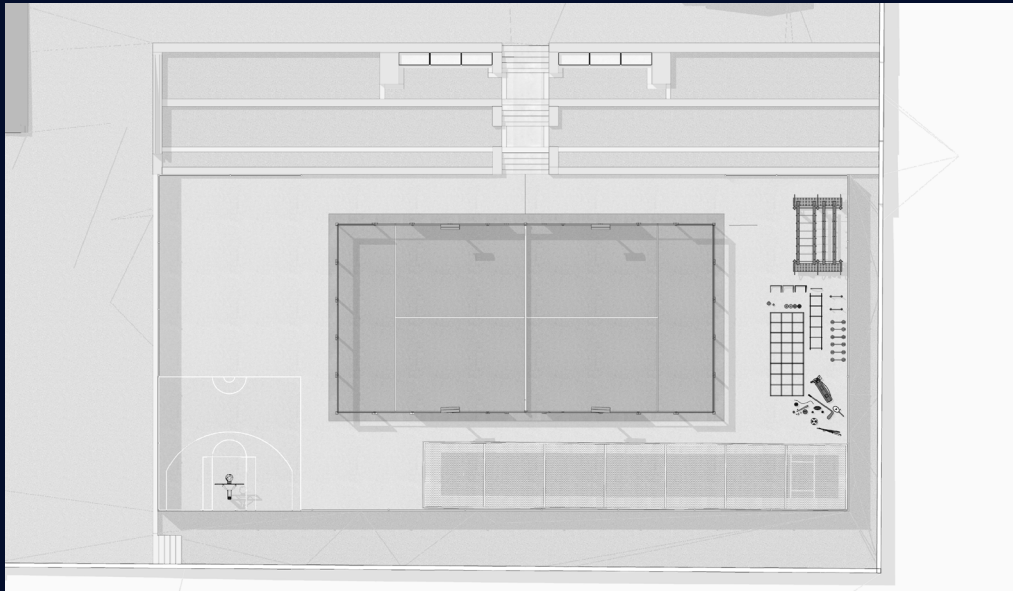

KLOEK PRIVATE PADEL COURT

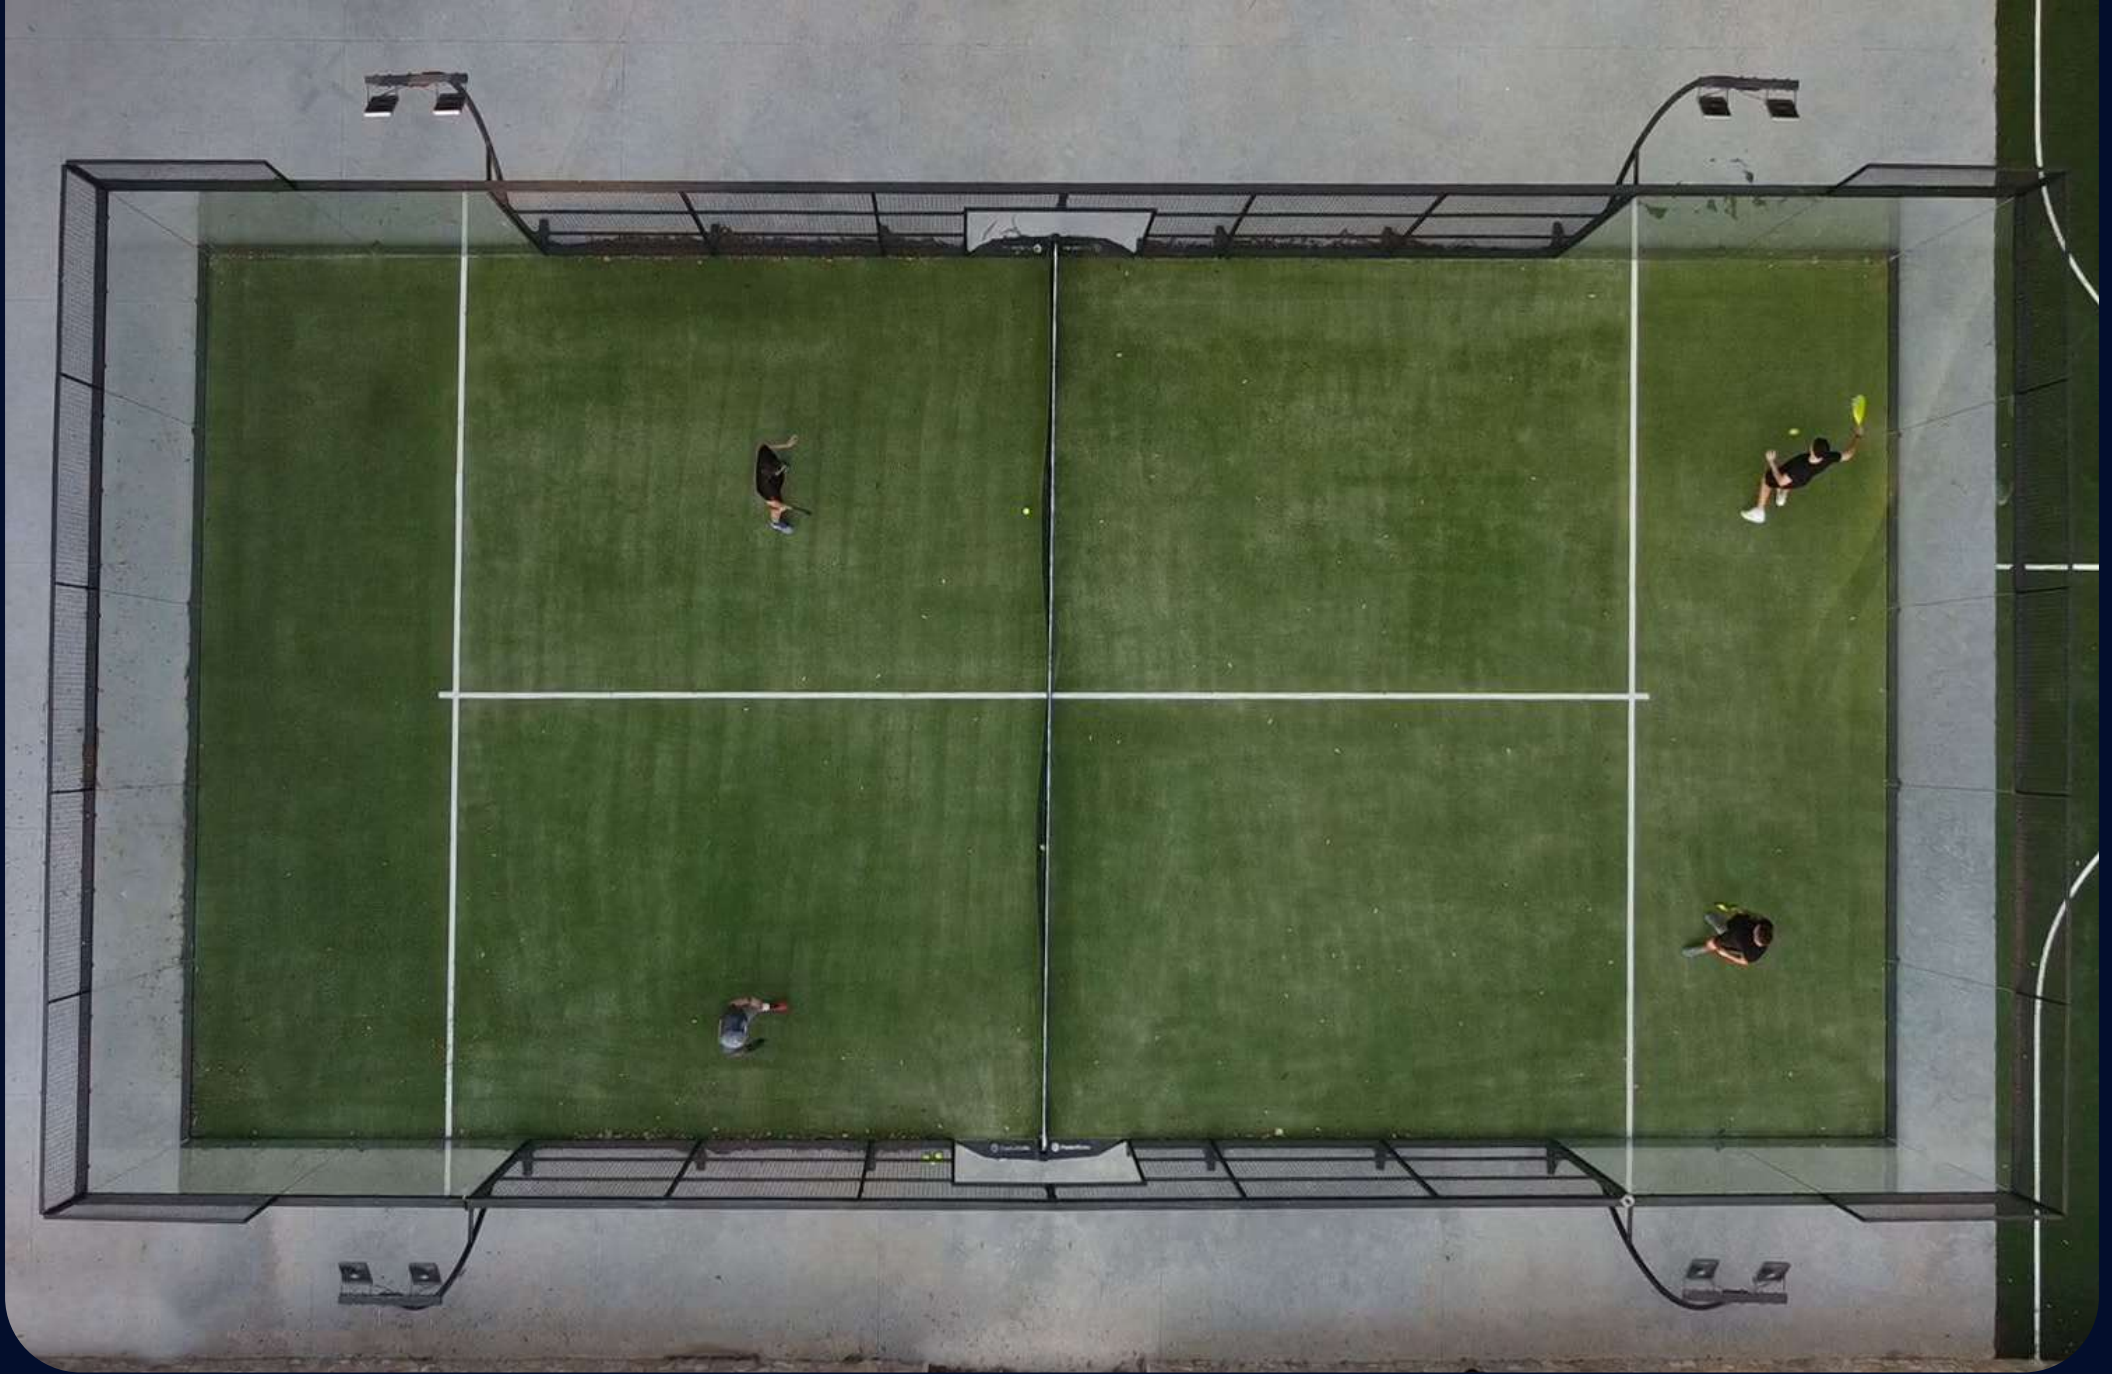

2025

- Client: Mr Kloek
- Size: 1 Outdoor Court
- Location: Private Residence
- Status: Complete

This bespoke padel court was designed as a high-performance private facility, transforming a former tennis court into a fully glazed padel arena. The court features professional-grade surfacing, sleek black steel framing, and tensioned mesh above glass panels creating a clean, modern edge while maintaining unobstructed views.

MARKS PARK PADEL

2024

- Client: Marks Park Sports Club
- Size: +250 m² (4 Courts)
- Location: Emmarentia, Randburg, Gauteng
- Status: Complete

Located within the renowned Marks Park Sports Club, this padel facility seamlessly integrates modern sporting infrastructure with a vibrant social atmosphere. Designed for both competitive play and community engagement, the club offers a contemporary and inviting environment that enhances the player experience.

COALITION PADEL

2025

- Client: Marks Park Sports Club
- Size: +450 m² (3 Outdoor Courts, 2 Indoor Courts)
- Location: Witpoort, Midrand, Gauteng
- Status: Complete

As Johannesburg's premier indoor padel facility, Coalition Padel delivers an unparalleled playing experience in a state-of-the-art, climate-controlled arena. Designed to cater to both competitive athletes and social players, the facility blends high-performance sports infrastructure with sleek architectural aesthetics, redefining indoor padel in South Africa.

MORNINGSIDE COUNTRY CLUB

2023

- Client: Club Padel
- Size: +5 000 m² (5 Outdoor Courts)
- Location: Morningside, Sandton, Gauteng
- Status: Complete

Nestled within the historical grounds of the Morningside Country Club, this padel club merges the rich legacy of the venue with the energetic spirit of modern sports. Celebrated for its lush surroundings and storied past, Morningside offers a unique backdrop that elevates the padel experience, blending tradition with contemporary athleticism.

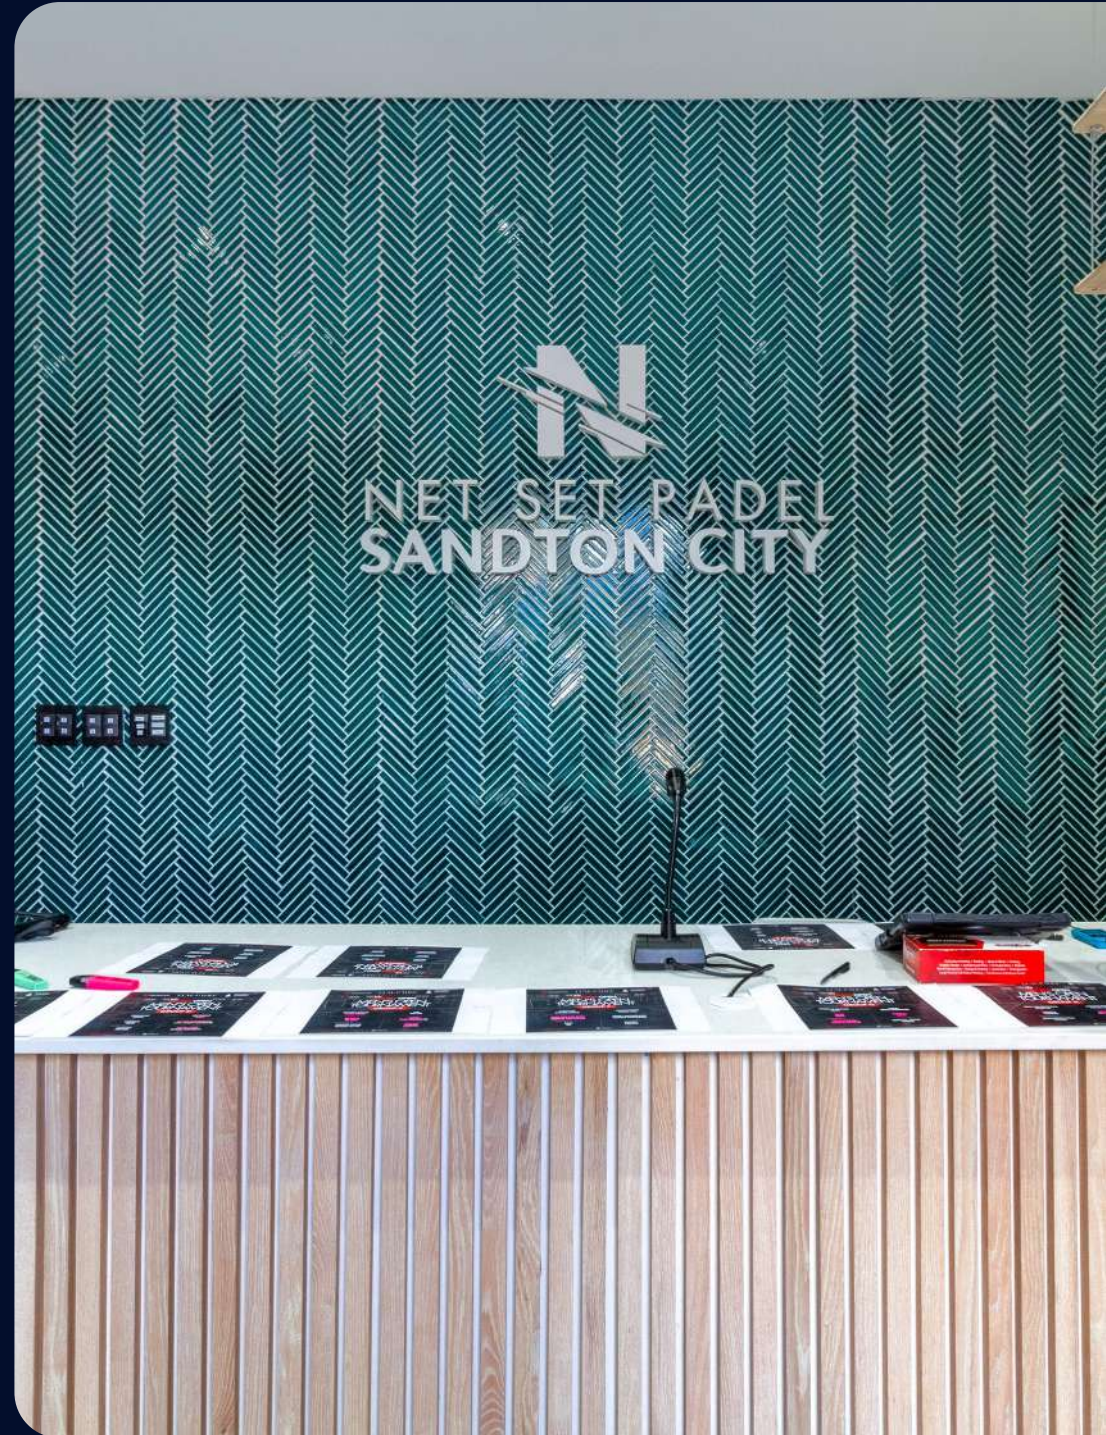

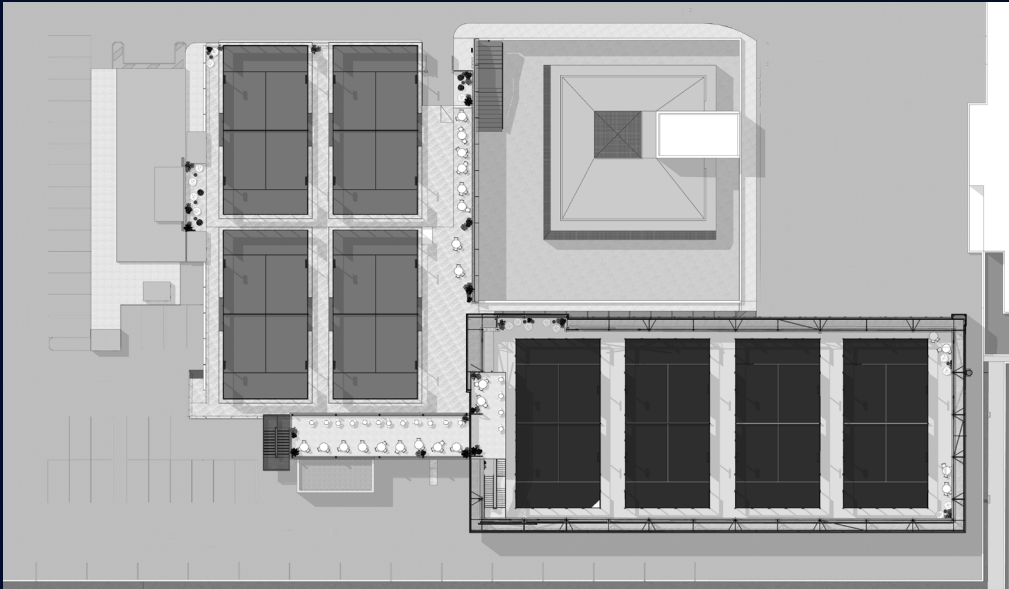

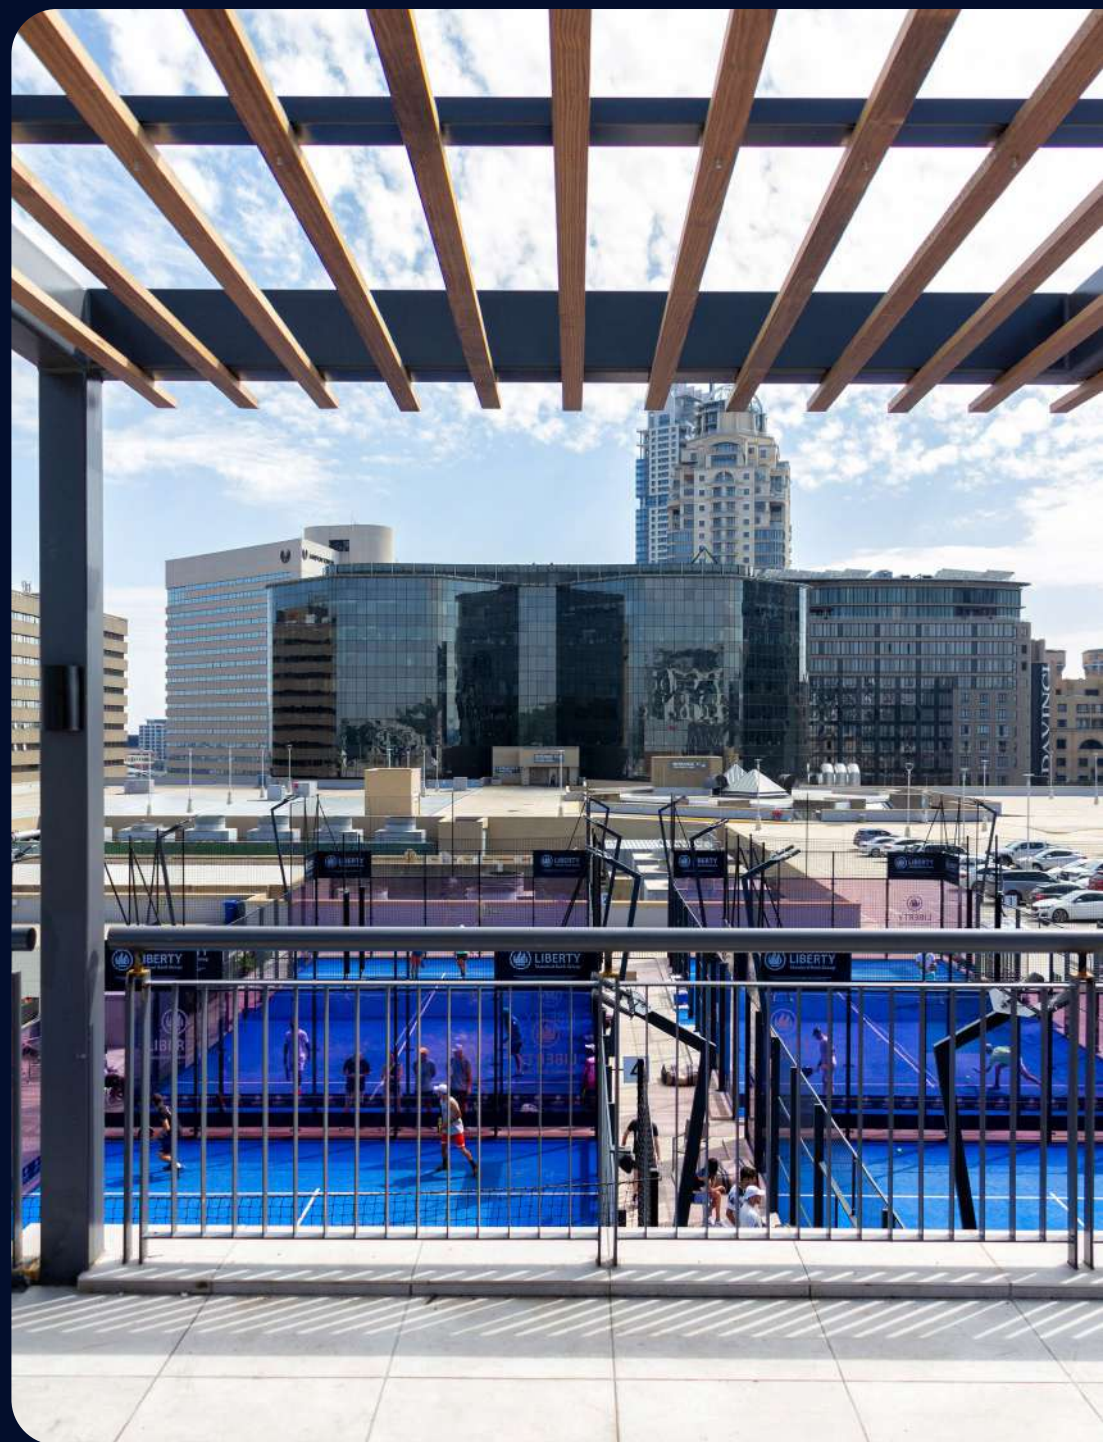

SANDTON CITY PADEL

2025

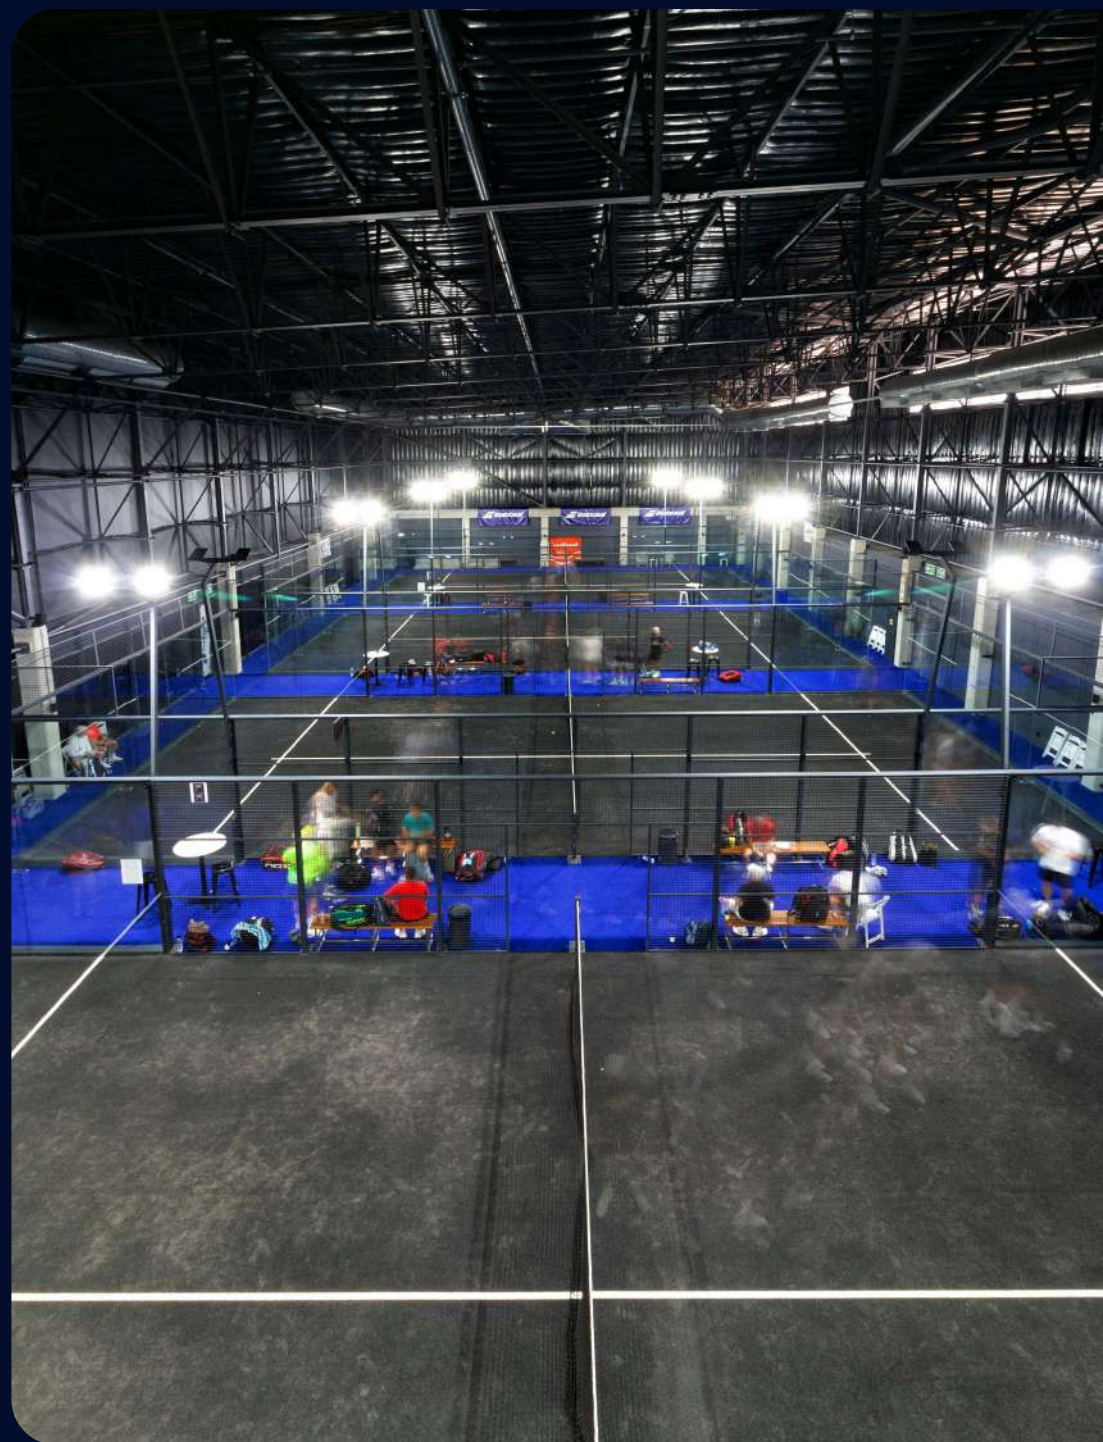

- Client: Netset Padel
- Size: +3 000 m² (4 Outdoor Courts, 4 Indoor Courts)
- Location: Sandton City, Sandhurst, Sandton, Gauteng
- Status: Complete

Nestled within the historical grounds of the Morningside Country Club, this padel club merges the rich legacy of the venue with the energetic spirit of modern sports. Celebrated for its lush surroundings and storied past, Morningside offers a unique backdrop that elevates the padel experience, blending tradition with contemporary athleticism.
